EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- Page 1, Line 9: Articles are needed before two words in this line. The word --an- is needed before "event" and --a-- is needed before "contest".
- Page 5, Line 18: Please delete the extra period after "etc."
- Page 5, Line 19: The verb "allow" should read --allows--.

2. Claims 1-5 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Flexible tactile switches are not new in the prior art. The **Beggs** [U.S. 4,845,323] reference presents just such a switch for determining the presence or absence of weight of an object. However, there is no prior art device that combines a compressible material, external reset button, internal weight sensor located below the top of the material and stopwatch timer in the upper portion visible from the top. This combination is considered novel and unobvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Zakai [U.S. 4,913,248] presents a compact electronic weighing scale.

Maxwell et al [U.S. 5,141,065] detects when weight is applied on a scale platform.

Lo [U.S. 5,594,419] has a hook for hanging personal items.

Smith et al [U.S. 6,646,556] is a sensor for use in patient monitoring situations.

Pruisner [U.S. 6,707,386] detects pressure and outputs a pressure-sensed signal.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John A. Tweel, Jr. whose telephone number is 571 272 2969. The examiner can normally be reached on M-F 10-6:30.
